## **Portsmouth City School District Title I Parent Involvement Policy**

The following parent involvement plan was developed in consultation with, reviewed by, and made available to Title I parents / all parents in the district and incorporates the Parental Involvement Policy from the Portsmouth City School District Here as required by the Elementary and Secondary Education Act. Its purpose is to serve as a guide for the yearly activities of the Title I program, to help parents understand the program's requirements, and to promote the importance of the educational partnership between the school and the home.

1. Title I parents / all parents will be notified of their children's participation in the program via the district student code of conduct.
2. A Title I parent meeting will be held in the fall of each school year. Information provided at the meeting will include information about school-wide qualification for all students, description, and explanation of the curriculum and services to be used, the forms of academic assessment that will be used to measure student progress, the proficiency levels the students are expected to meet, and the rights of the parents to be involved. Parents have the opportunity to meet with the Title I teachers.
3. Two parent-teacher conferences will be held at the same time as the regular school conferences.
4. Parents will be provided a report of their child's progress either at the end of each grading period.
5. Title I staff will be accessible to Title I parents before and after school by appointment or at other times as scheduled.
6. Parents will receive a survey requesting ideas for planning, designing, and implementing the following year's program. This will include an assessment of the current year's activities.
7. Surveys, meetings, progress reports, parent conferences, home/school communications will serve as a means to promote the education of children at home.
8. Parents, Teachers, and students will sign a School-Parent Compact.
9. Parents have the opportunity for decision-making related to the education of their children. Parents may also sign a waiver of service.
